

MAINE TURNPIKE AUTHORITY
ADDENDUM NO. 1
Request for Letters of Interest
Consultant Contract 2019.102
TOLL SERVICES

The following questions have been submitted. Answers to the questions are noted. Consultants shall utilize this information in preparing their Letters of Interest.

1. The Request for Letters of Interest reads:

The Maine Turnpike Authority (Authority) hereby solicits Letters of Interest from firms interested in:

- becoming prequalified by the Authority to perform Toll Services, or
- becoming prequalified by the Authority to perform Toll Services and subsequently receive a Request for Qualifications or Proposal to be considered for a Toll Services contract.

Do we need to indicate in our LOI which of the above we are seeking and is there a difference between the two?

Answer: Being prequalified in Toll Services is a requirement in order to provide General Engineering Consultant Services (Contract 2019.103) for the Maine Turnpike Authority. Once a Consultant is prequalified in Toll Services, they will automatically be solicited to respond to the Request for Qualifications for Toll Services (Contract 2019.102). Consultants may indicate which they are interested in, but it is not necessary.

2. We see that there is a RFQ for Toll Services posted on the MTA website. Is this RFQ for existing pre-qualified Consultants from the 2014 contract or is this in conjunction with the LOI for prequalification for the new 2020 contract? And if the RFQ is for the new prequalification for the 2020 contract, will proposers be notified well in advance to be able to prepare a proposal for the RFQ for Toll Services?

Answer: The Maine Turnpike Authority is currently updating the list of Prequalified Consultants for Toll Services from 2014. Consultants who are prequalified for Toll Services in 2019 will be solicited to respond to the Request for Qualifications for Toll Services (Contract 2019.102). Letter of Interest for Prequalification for Toll Services are due by April 26, 2019. The Authority will post the updated list of Prequalified Consultants for Toll Services on its website by May 24, 2019. Statements of Qualifications for Toll Services are due by June 21, 2019.

NOTES: The above items shall be considered as part of the submittal.

All Consultants are required to acknowledge the receipt of the Addendum No. 1 by signing below and faxing this sheet to Nate Carll, at 207-871-7739.
