

REQUEST FOR PROPOSALS  
MAINE TURNPIKE AUTHORITY  
NOTICE TO CONSULTANTS

Sealed Proposals will be received by the Maine Turnpike Authority for:  
CONSULTANT CONTRACT 2012.104  
**SURVEYING SERVICES**

at the office of the Maine Turnpike Authority, 2360 Congress Street, Portland, ME,04102, until 12:00 p.m., prevailing time as determined by the Authority on April 11, 2012. Proposals will be accepted from selected Consultants that the Authority has determined are the most likely to be qualified and capable to perform the work. All other proposals may be rejected. In order to be considered responsive, three (3) copies of the complete proposals must be submitted. Proposals need to be limited to 10 pages, size 12 point font, including appendices. One sheet of paper consists of one page single-sided or two pages double-sided. Page count does not include covers, the transmittal letter or dividers. All proposals shall utilize recycled paper and print on both sides whenever feasible and appropriate. Proposal need to be clearly marked "Request for Proposals for SURVEYING SERVICES."

The Authority is soliciting proposals for Surveying services for various projects related to the Maine Turnpike. Examples of project assignments may include, but are not limited to: baseline stakeout, leveling circuits, boundary surveys, Right-of-Way surveys, topographic surveys, cross-section surveys, wetland location surveys, GPS surveys, mapping verification surveys, existing condition surveys and construction layout surveys. The work to be performed on each specific project may include any or all of the above phases of work on various projects located throughout the Maine Turnpike System.

The surveying work must be performed in accordance with the requirements of the attached Maine Turnpike Authority Survey Guidelines. The required services will encompass a wide range of right of way, design and construction related surveying efforts. Interested firms should possess sufficient resources to be able to perform simultaneous survey projects upon short notice, and be able to meet tight completion schedules. The firms may be required to provide paper and electronic deliverables for topographic surveys, GIS data, survey worksheets, and GPS survey data in AutoCAD, DXF, ARC/INFO and Microstation formats.

Multiple Consultants will be selected and contracts will be awarded with terms of a maximum of four (4) years. Specific projects will be assigned to the successful candidates, as needed, after the contracts have been executed. The number of project assignments is dependent upon the number and scope of real property acquisitions or outsales per year, other right of way related survey needs in a given year, and the number and scope of construction projects in a given year that require survey where the Authority is self-performing the design or construction inspection. The location of the surveyor, surveyor workload, experience and demonstrated success are the criteria used to determine assignments. Survey needs for Consultant managed design projects or construction inspection projects on the Turnpike are not covered by this RFQ. In those cases, the Consultants will solicit for survey firms as they deem appropriate.

For general information regarding Bidding and Contracting procedures, contact Susan Danforth, Purchasing Manager, at (207) 871-7771 Ext. 105. For Project specific information, fax or email all questions to Susan Danforth, Purchasing Manager at (207) 871-7739 or [sdanforth@maineturnpike.com](mailto:sdanforth@maineturnpike.com). Responses will not be prepared for questions received by telephone. All questions need to be provided by March 28, 2012 at 4 o'clock PM in order for the Authority to respond to the proposer prior to acceptance time. The Proposer shall not contact any other Authority staff or Consultants for clarification of Contract provisions, and the Authority will not be responsible for any interpretations so obtained.

## **I. GENERAL INFORMATION**

If interested, the Consultant shall respond to this request on or before the time due for submission. Following the receipt of the proposal, the proposal shall be reviewed to verify the Consultant understands the Scope of Work, as described in the attached document.

The Authority has solicited 10 consultants that the Authority has determined are the most likely to be qualified and capable to perform the work. In making the determination, the Authority utilized the list of prequalified Consultants from Maine Department of Transportation (MaineDOT) to develop a pool of potential candidates. The short list of candidates is those who are currently under a MaineDOT Consultant Agreement for Engineering/Topographic and Property Survey Services or who have been known to have successfully performed Survey Services on Authority projects in the past. From the short list, the Authority will select the best qualified consultants to serve the Authority.

During the evaluation of the proposal, if necessary, the Authority may wish to request supplemental information from the Consultant. Once a pre-execution review has been conducted and all is in order, and a contract is signed, the Authority will forward a Task/Project Order authorizing work to proceed for that project. The pre-execution review may include review of insurance certificate. The Authority will negotiate with another firm if an agreement cannot be reached.

The Contract will include the Authority's Final Scope of Work, the Task/Project Order, and the Maine Turnpike Authority's Engineering Consultant General Conditions. All of which are attached for reference.

## **II. GUIDELINES FOR PROSPECTIVE CONSULTANTS**

Prospective consultants must meet the following standards as they relate to this request:

- a. Have the necessary experience, organization, technical and professional qualification, skills and facilities;
- b. Be able to comply with the proposed or required time of completion or performance schedule;
- c. Have a demonstrated satisfactory record of performance.

- d. Surveys must be completed under the direct supervision of a Maine registered Professional Land Surveyor.
- e. All proposals shall be in accordance to the Authority's most recent version of the Engineering Consultant General Conditions, **which are attached as a reference.**

### III. PROPOSAL PREPARATION

The proposal shall be typewritten, with pages numbered. The cost section shall be placed in a separate section of the proposals from other sections; no mention of costs shall be made in other sections. The proposal shall include sufficient description, itemization, documentation, and reference to allow total and accurate evaluation of the Consultant and the work to be performed. To facilitate evaluation, the Consultant is requested to organize its proposal to coincide with the sequence of Items 1 through 6 below.

1. Letter of Interest

The Letter of Interest may also be used as the transmittal letter, but in that case, the Letter of Interest counts towards the 10 page maximum.

2. Company Qualifications and Experience

The Consultant shall describe its range and depth of experience relevant to this solicitation and the extent to which such services are one of the Consultant's principal areas of activity. This section shall also discuss the Consultant's available resources for carrying out the work including labor, equipment, facilities, and so forth.

3. Project Management

The Consultant shall identify the key staff that will comprise the project team and the Consultant Project Manager who will be assigned to administer the contract with the Authority. Organization charts may be provided showing the corporate structure and the project team to show the overall structure of the Consultant's organization. This section shall clearly indicate the Consultant's capability to undertake the requested Consultant services. Resumes shall be limited to one page per each key staff member.

4. Cost

The proposal shall include the burdened hourly rates for proposed employees to be used and any anticipated non-salary expenses. This information will be used to confirm the employee's salary fits the proposed position level. Salary rates must commensurate with qualifications and experience of employee. This cost information will be used to determine if the proposed Consultant's total cost will be within the Authority's acceptable budget for this Scope of Work. Fees for actual project assignment will be negotiated at the time of assignment. The Authority is not responsible and will provide no compensation for costs incurred during proposal

preparation and/or negotiations. The following details shall be applied to the Cost section of the proposal.

- a. Burdened Hourly Rates - Give job titles and daily or hourly rates for personnel performing under the contract. Describe the standard workday, conditions when standby and overtime rates are applicable, and the method for computing labor charges.
- b. Equipment - Indicate types, rates and other relevant information including any policy for applying rates.
- c. Other costs - Detail other costs including that for subcontractors.
- d. Overtime – The Consultant shall indicate their firm’s policy on overtime and indicate which, if any, of the key staff that are proposed to be used are eligible for overtime.

5. Misconduct

During the period of the last five years, list all citations or notices of violation issued to your organization’s local office and employees being proposed; labor law violation, environmental law or regulation violations, or citations issued for safety law violations or results of adjudatory procedures/hearings against licensed individuals being proposed. Indicate any proposed or pending litigations or unresolved claims, including State Licensure Board, or other formal claim using arbitration/mediation regarding employee’s performance.

6. Appendices

Appendices shall be used to compile resumes and project profiles.

#### IV. CONTRACT AWARD

Any contract entered into by the AUTHORITY shall be in response to the proposal and subsequent discussions. The award shall be based on the criteria described herein. **Contract form is attached to this request for proposal as a reference.** Once contract has been agreed to and executed, the Authority will provide notice to consultant with a Task/Project Order Letter that will authorize work to proceed.

AUTHORITY reserves the unqualified right to reject any or all Proposals and to accept that Proposal which in its sole judgment will under all circumstances serves its best interest. The Maine Turnpike Authority reserves the right to negotiate the final product and cost with the selected Consultant. If the Authority is unable to enter into an agreement with the selected Consultant, the Authority reserves the right to terminate the negotiations and initiate negotiations with another Consultant. No compensation will be paid for the failed negotiations.
