

# Center Road Bridge Project

## Project Overview

The Center Road Bridge was built in 1956 and the last major rehabilitation was in 2001. The work for 2014 on the bridge consists of adding a new bridge wearing surface, deck repairs and concrete repairs to the substructure. Center Road will be closed during the completion of the repairs. Any necessary lane closures on the main line of the turnpike will be limited to off-peak times.

## Project Schedule

### April 2014

- Project out to bid
- Contract awarded to Scott Construction

### May 2014

- Contractor mobilizing

### June 2014

- Bridge to close for construction

### July 2014

- Bridge reopens to traffic

## Current Status

The contractor will begin mobilizing during mid to late May to install construction signage. Once the bridge is closed, the existing pavement will be removed, followed by repairs to the existing concrete deck. At which point, new pavement will be placed. Other work will include repairs to the concrete bridge abutments and piers, as well as replacement of the bridge joint seals.

## Bridge Closure

In order to facilitate major construction activities and to ensure safety of the construction crews and public, the Maine Turnpike Authority plans to close the bridge for approximately one month beginning in late May or early June. *(See back page for details)*

## Detour Route

The Center Road Bridge carries approximately 1,260 vehicles per day over the mainline of the Maine Turnpike. The signed detour route during bridge rehabilitation will redirect traffic to Hunts Hill Road, to Portland Road and to Yarmouth Road. The detour as signed is approximately 2.5 miles.

## Be Informed...Be Involved

Continued public involvement and participation is a very important part of the construction project process. The Maine Turnpike Authority will provide project updates as major project milestones are reached. Residents are encouraged to stay involved and obtain project information from any of the following sources:

- Access the Maine Turnpike Authority web site at [www.mainturnpike.com](http://www.mainturnpike.com)
- Add your name and email address to the project mailing list to receive future project correspondence
- Contact Erin Courtney in Public Relations at (207) 482-8119 or [ecourtney@mainturnpike.com](mailto:ecourtney@mainturnpike.com)
