York River & Cutts Road Bridge Repairs  
Project Update  
June 17, 2015

Pin & Hanger Connection

**Contractor:** CPM Constructors, Freeport, ME  
**Percent Complete last approved pay estimate:** 46%  
**Project Completion:** December 18, 2015

**Bid Amount:** \$4,461.943

**Project Scope:**

The work consists of replacing the wearing surface and rehabilitating the substructure on the York River Bridges over the York River in York, Maine. The work includes wearing surface replacement, deck expansion joint replacement, pin & link connection cleaning and painting, abutment and pier cap concrete repairs, pier bent pile rehabilitation, abutment bearings replacement, pier bearing rehabilitation and maintenance of traffic.

**Contractor Schedule:** CPM Constructors continue to work on concrete repair at the piers and clean the pin and hanger connections. They also began work on wrapping and coating the pier columns.
