Jonathan Arey, Secretary & General Counsel

June 6, 2014

Dear Neighbor:

The Maine Turnpike Authority is in the process of making upgrades to its tolling equipment at various interchange locations. The Wells Interchange (Exit 19) is included in the current contract, awarded to Wyman and Simpson, that includes replacing concrete slabs, upgrading the toll equipment as well as replacement of the canopy roof.

The schedule for the work at Exit 19 was just finalized between the Maine Turnpike Authority and the contractor. Wyman and Simpson will begin work on the southbound entering lane on Monday, June 16, 2014. This will require the easterly most northbound lane to be used temporarily as the southbound entering lane.

Due to this work, beginning on June 16, there will be a wide load restriction northbound at the Wells Interchange.

Construction on the southbound entering lane is scheduled to be completed by Wednesday, July 23, 2014. The contractor will resume work on all other lanes at Exit 19 after Labor Day. We will update you regarding the schedule for the fall once more information is available.

Your patience during this construction period is greatly appreciated. We apologize for any inconvenience caused by the project. If you have any concerns or questions, please do not hesitate to contact me by phone at (207) 482-8119 or email at ecourtney@maineturnpike.com. We will provide updated construction schedule information during the project on the Maine Turnpike Authority website at www.maineturnpike.com.

Very truly yours,

Erin Courtney
