

2019 CONSTRUCTION PROJECT

Old Webster Road Bridge, Lewiston

Project Highlights

- \$320,000 project part of \$3.6 million contract
- Awarded to Scott Construction Corporation
- Replacement of the bridge wearing surface
- Rehabilitation of the bridge substructure
- Bridge to be closed for approximately 3 weeks
- Closure scheduled to begin early June of 2019
- Detour route will be signed during closure

This project consists of repairs to the Old Webster Road Bridge that crosses over the Turnpike at Mile 82.7 in the City of Lewiston.

Repairs to the bridge will include substructure rehabilitation, roadway approach work, replacement of the bridge wearing surface and bridge joint repairs.

The bridge will remain open during much of the construction. The contractor will be allowed to close the bridge to traffic for up to three weeks to replace the bridge joints and wearing surface.

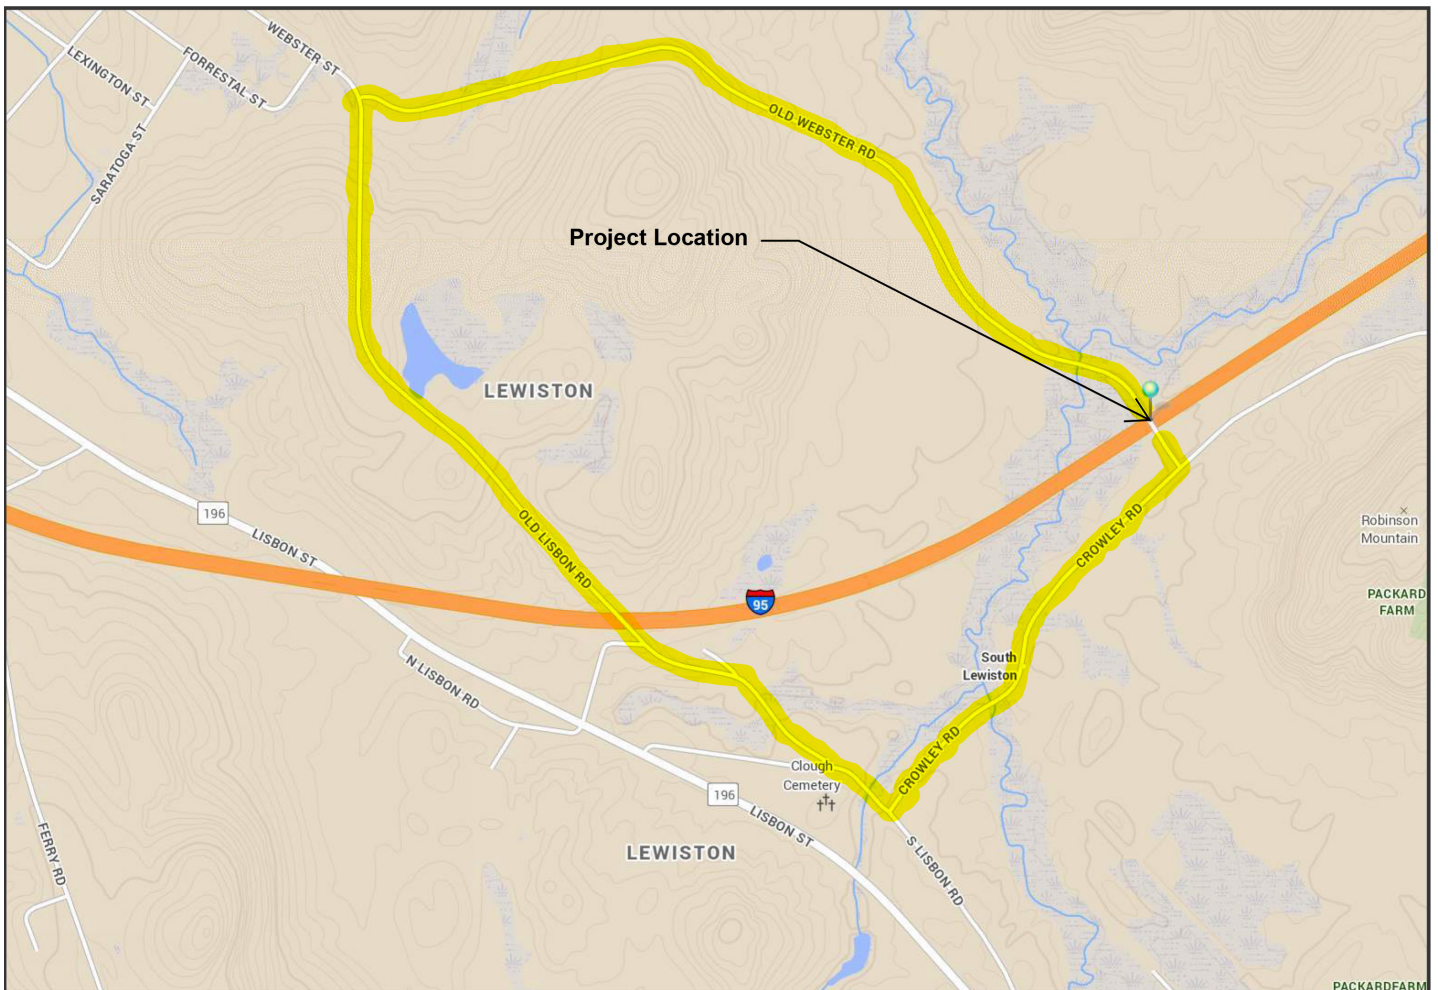

The closure is scheduled to begin on Monday, June 10, 2019. During the closure, a detour route will be signed.

The project completion is scheduled for late July 2019.

Old Webster Road Detour Route

The Old Webster Road Bridge carries approximately 570 vehicles per day over the mainline of the Maine Turnpike. Traffic will be routed around the site via a detour using Crowley Road and Old Lisbon Road. The detour as signed is approximately 3.5 miles long.
