Notes to the Financial Statements

On January 1, 2008, the Maine Turnpike Authority converted to a full governmental GAAP basis of accounting. Prior to GAAP, the Authority based its financial statements on provisions outlined in the general bond resolution and subsequent supplemental resolutions. Certain assets, liabilities, revenues and expenses were not included in those financial statements.

- A) Investments are carried at fair market value. Accrued interest paid upon the purchase of investments is recognized as interest income in the period it is earned.
- B) Fixed Assets are recorded on the balance sheet at historical cost. Capital assets are included in one of the following categories: Infrastructure; Land; Buildings; Vehicles, Toll System, Computer and Other Equipment; Intangible Assets; and Construction in Progress.

The Maine Turnpike Authority has elected to use the modified approach to infrastructure reporting under GASB 34. This means that, in lieu of reporting depreciation on infrastructure, the Authority reports as preservation expense the costs associated with maintaining the existing road in good condition. Infrastructure assets include roads, bridges, interchanges, tunnels, right of way, drainage, guard rails, and lighting systems associated with the road.

Construction in Progress represents costs incurred by the Authority for in-construction or development assets that are not yet in service. Construction in Progress activities are new additions, replacements, or extensions of the useful lives of existing properties and equipment. Costs for completed projects (in service) are transferred to the appropriate fixed asset category and depreciated according to the depreciation policy.

- C) Depreciation Expense for non-Infrastructure assets are recorded based on the straight-line method, over the asset's useful life, using the full-month convention.
- D) Prepaid Expenses - expenses that benefit more than one reporting period are charged to Prepaid Expenses and expensed over its service period. Examples include insurance premiums, software site licenses and service contracts.
- E) Deferred Bond Issue Costs, such as bond insurance, are recorded as assets and amortized over the life of the bonds. All other bond issue costs include lawyer and accountant fees, traffic and engineering consultants, and underwriter's discount are expensed in the period they are incurred.
- F) Inventory, which consists of EZ Pass transponders that will be sold to customers, Salt and Fuel for vehicles to be used in Operations, is carried at the lower of cost or market and is valued using the FIFO method.
- G) Retainage Payable represents amounts billed to the Authority by contractors for which payment is not due, pursuant to retained percentage provisions in construction contracts, until substantial completion of performance by contractor and acceptance by the Authority.
- H) Accrued Salaries Payable includes salary and wage expense incurred at the end of the period but not paid until the following period.
- I) Accrued Vacation and Sick Leave Payable includes accumulated vacation pay and vested sick pay.
- J) On November 1, 2012, the Authority discontinued offering the Quarterly Commuter Plan and replaced it with a volume based discount plan. In this new plan, Class 1 personal account holders can qualify for a 25% discount if the number of trips in a month exceed 30, or a 50% discount if the number of trips in the month exceeds 40.
- K) Bond Premiums and Discounts are amortized over the life of the bonds using the effective interest rate method.
