

2019 CONSTRUCTION PROJECT

MAINE
TURNPIKE

Shaker Road Bridge (Route 26), Gray

Project Highlights

- \$565,000 project part of \$3.6 million contract
- Awarded to Scott Construction Corporation
- Raising of the bridge to avoid future vehicle hits
- Replacement of the bridge wearing surface
- Alternating one-way traffic anticipated to begin mid-April
- Bridge will be closed to traffic for up to 14 days in mid to late July
- Detour route will be signed during closure

This project consists of repairs to the Shaker Road Bridge that crosses over the Turnpike at Mile 64.3 in the Town of Gray.

Repairs to the bridge will include raising of the bridge to avoid future vehicle hits, reconstruction of the roadway approaches, replacement of the bridge wearing surface and repairs to the concrete deck and substructure.

During the construction, the bridge will remain open using signalized alternating one-way traffic. The bridge will be closed to pedestrian traffic during construction.

The contractor will be allowed to close the bridge to traffic for up to 14 days in order to jack the bridge into its final position and place the bridge joints and concrete.

During the closure, a detour route will be signed.

Shaker Road Detour Route

The Shaker Road Bridge carries approximately 7,100 vehicles per day over the mainline of the Maine Turnpike. Traffic will be routed around the site via a detour using Route 202 and Maine Wildlife Parkway (Route 26A). The detour as signed is approximately 2.6 miles long.
