

2023 CONSTRUCTION PROJECT

Littlefield Road Bridge, Wells

Project Highlights

- \$700,000 project - part of \$2.4 million contract
- Awarded to CPM Constructors of Freeport, ME
- Work includes deck repairs and pavement replacement
- Bridge will remain open during construction
- Bridge reduced to one lane of traffic for up to 60 days
- Temporary signal will control alternating one-way traffic
- One-lane traffic scheduled to begin Monday, May 8, 2023

This project includes repairs to the Littlefield Road Bridge that crosses over the Maine Turnpike at Mile 17.3 in the Town of Wells.

The bridge work includes pavement replacement, deck expansion joint repairs and approach work.

The bridge will remain open during construction, however the contractor will need to reduce traffic across the bridge to one lane for up to 60 days. During this time, a temporary signal will be installed to control alternating one-way traffic.

One-lane alternating traffic is scheduled to begin on Monday, May 8th.
