

2018 CONSTRUCTION PROJECT

Fisher Farm Road Bridge and Curtis Brook Culvert, Sabattus

Project Highlights

- \$360,000 project part of \$918,000 contract
- Awarded to Scott Construction Corporation from Portland, ME
- Replacement of bridge wearing surface
- Repairs to bridge joints, concrete deck and substructure
- Includes installation of 6-foot chain link snow fencing
- Bridge to be closed for up to 21 days
- Closure is currently scheduled to begin July 9, 2018
- Detour route will be signed during construction (turn page over)

This project consists of general repairs and modifications to the Fisher Farm Road Bridge over the Maine Turnpike at Mile 87.5 in the town of Sabattus.

The repairs include replacement of the bridge wearing surface, work on the bridge joints, repairs to concrete deck and substructure and snow fence installation. It also includes repairs to the Curtis Brook culvert adjacent to the bridge.

During construction, the bridge will be closed to traffic to ensure the safety of construction crews and the public. The bridge is expected to be closed for up to three weeks.

Fisher Farm Road Bridge Project

Existing Average Annual Daily Traffic (AADT) on the bridge is approximately 600. Once construction begins, traffic on Fisher Farm Road will be detoured using Furbush Road, Middle Road, Route 9, Pleasant Hill Road, Route 126 and Marsh Road. The detour as signed is approximately 5.2 miles.
